In the year 2022, after taking the new year promises, we started working with new spirits. We have taken up a new project with our rags. It was one of the rags desired and an amazing project i.e., Child sexual abuse awareness program. We prayed and planned for 2 months to start working in the month of April. We have designed our own Tee shirt with Dove logo in our garments. Made Placards, charts and bought things that are needed for the awareness program. After all the preparations, on April 1st we had a successful and effective child sexual abuse awareness camp at APP School, Thakkellapadu. We taught to higher classes girls about the safety rules, how to protect their body. After the class we took rallied to Lingalapadu.

On April 3rd, we had been to BK Palem Sunday School we taught to our Sunday school kids and rallied and raised our voices to let people know that we are working against child sexual abuse.

On 13th April, Narayana school principal permitted us to teach 7-8th class girls at Nandigama. We had a more interactive class over there.

Then we tried to go to other schools but Govt declared summer holidays, so schools remain closed for 2 months. We would like to do more.
